Brachial Plexus Branches

The Brachial Plexus Branches are the nerves that directly innervate muscles.

PLAY PICMONIC

Musculocutaneous Nerve
Muscle-and-skin Nerve
The musculocutaneous nerve innervates all flexors in the arm and the skin of the forearm.

Axillary Nerve
Ax Nerve
The axillary nerve innervates the deltoid and teres minor muscles, which laterally rotates the arm.

Radial Nerve
Radial-tire Nerve
The radial nerve innervates all extensors in the arm and forearm.

Median Nerve
Median-road Nerve
The median nerve innervates most flexors in the forearm and 5 hand muscles.

Ulnar Nerve
Underwear Nerve
The ulnar nerve innervates 1-1.5 flexors in the forearm and the remaining hand muscles.
