

## Brachial Plexus Branches

Branches are the nerves that directly innervate muscles.

PLAY PICMONIC

### Musculocutaneous nerve

[Muscle-and-skin Nerve](#)

Innervates all flexors in the arm and the skin of the forearm.

### Axillary Nerve

[Ax Nerve](#)

Innervates the deltoid and teres minor muscles, which laterally rotates the arm.

### Radial nerve

[Radial-tire Nerve](#)

Innervates all extensors in the arm and forearm.

### Median Nerve

[Median-road Nerve](#)

Innervates most flexors in the forearm and 5 hand muscles.

### Ulnar Nerve

[Underwear Nerve](#)

Innervates 1-1.5 flexors in the forearm and the remaining hand muscles.
