

Nocturia

[Nocturnal-moon-urine](#)

Compression of the urethra can also lead to nocturia, which is the need to void at night.

Dysuria

[Urine-in-flames](#)

Patients often complain of pain on urination, or dysuria, due to compression of the urethra.

Urinary Tract Infection

[Urinary-tract-on-fire](#)

Compression and obstruction of the urethra can be a nidus for infection.

Hydronephrosis

[Water-in-kidney](#)

Complete obstruction of the urethra can in some instances lead to hydronephrosis and renal failure.
