

## Nasty

Topic Definition

CREATIVE AUDIO

Nose gnome is disgusted by the smell coming from this nasty nest. Every time he tries to throw it away, the unpleasant smell from this feet toad gets up close and personal. And the noxious fumes knock his fish right in the nose as well.

Graphics

This picture is titled nasty, so just think of gross color while coloring this one. The knocking fist on the right is actually going to be like a green smokey looking fist (its an odor). The gnome and the fish are still going to have color, however. Avoid using browns and blacks on them, just make sure the colors are more dull and on their own layers.

Dry audio

In this scene is a list of synonyms for nasty.
